

Centre for Children's Happiness

Dear Mr. Paraic Grogan,

Representative of HFCA

May I report you the impact after Homeless World Cup of the three youths at CCH

CCH is a local organization established in 2002, where the homeless children come to stay to get health care, education of knowledge, skills and attitude most children are working at the garbage dump and along the street they are short of opportunity to get education and care from the people surrounding them. Most the poor families do not know about the child psychology and education they are feeding the children just to give food, the parents do not think about child education and skill. Mostly the poor think about how to fill the stomach daily they do not care about the hygiene and disease Most of the poor never hope they can get opportunity to see the world even the neighbor country. Based on these issues most NGO make action plan to help the disadvantage and vulnerable children and youths, including Happy Football Cambodia Australia.

HFCA gives opportunity to the children to learn about self leaderships, skills and good attitude, to give them the opportunity to see the different people in the world in order to encourage and motivate them to learn to live together with sharing ideally, financially and spiritually. After attending and come back from Homeless World Cup in AUSTRALIA, the three children are trying hard to learn more, to live independently, to share their ideas what they learnt the culture from the HWC in Australia. The three children gain more creative ideas in sharing and helping younger children and commit to do all the right things and making change their behaviors from badness to goodness. They teach the younger about the discipline of the players, about how to play football and how to act while they are in the team work while competing with other teams. Basically, they got the fishing materials from HFCA then they are now doing fishing from the experiences what they learnt

Personally, I thank you so much to HFCA for helping and supporting CCH children

I Wish All HFCA staff and members Very Happy, Succeed All Your Tasks and Prosperity in Your Life

Many Thanks and Best Wishes,

Mech Sokha
